Application for Academic Use of RetouchingFFHQ

Information of the applicant

Name	
Country	
Academy/Organization	
Email/Tel	
Research Interest and Supervisor (Optional, if applicable)	
Degree	

Purpose

How did you know our dataset? Were you previously involved in researches on detection (such as DeepFake, retouching, image manipulation)?

Of what purpose do you want to use RetouchingFFHQ?

Are you going to use the dataset for any non-academic industrial projects? Please also specify if there is any potential ethical or profitable issue.

If you are to conduct academic research, which journal/conference will you possibly submit your incoming work? (Optional)

Notifications

By sending us the application form, we assume that you acknowledge the fact that RetouchingFFHQ is published at 2023 ACM International Conference on Multimedia, Ottawa, Canada. Authors wish to release the dataset only for academic purposes. The authors may provide future versions of the dataset. However, this is not mandatory, and we are not responsible for any maintenance for any model or methodology built upon our academic dataset. Besides, please beware that the data cleaning process may not be sufficient: there might still exist samples where retouching operations were not properly conducted. Finally, citation to the paper is required.
